On Tuesday February 19th, 2013 at approximately 2030hrs PC WILSON was contacted by Malahat KHERADYAR who advised that she obtained a copy of incident #13-25994 and her side of the story was not reported.

She advised the officer that her son provided information to the officers that had not been reported. The writing officer advised her that the information provided was documented however if she had information that she felt was not added that he would document it for her.

Malahat advised that on January 27th her son Mahyar RADMEHR begged her to attend his residence because his youngest daughter was ill and needed to be taken to the hospital. Mahyar wanted her to attend to watch his other daughter because his wife Sheida was sleeping. Malahat advised that she did not want to go however she did attend with her mother to the residence.

Upon Malahat attending Sheida was in the garage having cigarette. Malahat advised that she told Sheida that she's not being a good role model to the children. Malahat entered the residence. The youngest child went to her and sat on her lap on the couch. Malahat advised that Sheida entered the residence where they both exchanged words. Sheida went upstairs and obtained a camera. At this time she was filming the incident. Sheida then put the camera down approached Malahat. Malahat advised that Sheida called her a "WHORE" and told her to leave her house. Malahat stated that Sheida hit her face with her fingers and kicked her in the shin.

Malahat advised the officer that she did not want to lay charges however she wanted a record of the incident in case any further issues occur with her daughter in law.

This report was generated as per the request of Malahat.
